

## **Declaring Pre-Music**

Visit the Music Department's "Apply and Audition" webpage.

<https://music.sdsu.edu/index.php/admission>

Though it covers the full application process for a non-matriculated SDSU student, the audition portion (step 3) outlines the audition process and procedures. It is not necessary for a matriculated student to audition on the prescribed dates according to the website, though they will need to speak to one of the faculty on the audition committee to set up a time/date for the audition.

The audition process places students directly in the major, so there isn't technically a "pre-major" in music.
