

CHILD AND FAMILY DEVELOPMENT (CFD)

To change to the CFD pre-major from undeclared or another pre-major:

1. Read about the CFD major in the current SDSU catalog.
2. Visit the CFD website, <http://go.sdsu.edu/education/cfd/>
3. Meet with the CFD Undergraduate Advisor, Pamela Gardner, during her office hours to talk about the major and about declaring the CFD pre-major. She is located in EBA 259. Her office hours are available at 619 594-7035. She sees students on a walk-in basis.
4. Please know that not all students are advised to join the CFD pre-major. If a student has completed many units and has a low GPA, it may not be reasonable for that student to declare CFD as a pre-major. Instead, students in this situation may be referred to the Interdisciplinary Major.

Once you are admitted into the CFD pre-major, take all the preparation for major courses for a grade (except for AP credit). You must have a minimum grade of C or better in each pre-major course. In addition, you must have an overall GPA of at least 2.4 before being admitted into the CFD major.
