

First Steps For **UNDECLARED STUDENTS**

UNDECLARED STUDENTS ARE HERE TO EXPLORE AND DISCOVER.

With guidance, the first semesters are an opportunity -- to try-out new ideas, become curious, and find your academic path.

1. Choose your classes strategically. GE classes are also lower division prerequisites for many majors (maybe yours?).

2. Assess your Goals and Motivation. What has been most enjoyable? Where have you excelled? Choose a direction that includes the areas that are interesting and exciting to you.

3. Explore Widely! There are more degrees at SDSU than most people realize (90+!). We have many unique majors that are unfamiliar, for example Gerontology, Social Work, and Urban Studies.

4. Know in Advance. Before declaring, be aware of the minimum GPA requirements of each department.

5. Use MyMap! This feature allows you to become familiar with the usual progression of your courses. Run your degree evaluation "as if" you are in the major.

PLAN TO DECLARE A (PRE) MAJOR BY YOUR FOURTH SEMESTER.
